

TOTAL PLAY ANNOUNCES A 63% INCREASE IN EBITDA, TO Ps. 2,676 MILLION IN THE FIRST QUARTER OF 2021

—Revenue grows 44% to Ps.6,356 million in 1Q21, as a result of an increase of 67% in revenue from the residential segment—

—Totalplay Residencial RGUs increase 66%, to 7'120,000, as a result of the company's robust offering of triple play technologically advanced services—

—The number of homes passed increases 9%, to 10.7 million and the penetration grows 8.7 percentage points, to 25.3%—

Mexico City, April 28, 2021— CIBANCO, S.A, Institución de Banca Múltiple, as Trustee of the CIB/3370 Trust, announces that Total Play Telecomunicaciones, S.A. de C.V. ("Total Play"), provider of triple play services in Mexico, announced today its first quarter 2021 financial results.

First quarter results

"We continued with the strong geographic growth in Totalplay Residencial in the period, through our 100% fiber optic network direct to home, unparalleled in Mexico. At the same time, we significantly increased penetration, which allowed us to reach an increasing number of households with the company's world-class telecommunications services, with the highest speed internet, the best streaming quality and the most advanced entertainment options — from Video on Demand and Anytime TV, to applications with the most innovative content globally," commented Eduardo Kuri, CEO of Total Play. "The dynamic growth in the number of subscribers, translated into a solid increase in revenues, EBITDA and Operating Income for Total Play in the quarter."

Revenue for the period totaled Ps.6,356 million, 44% above the Ps.4,402 million in the same quarter of the previous year. Total costs and expenses were Ps.3,680 million, compared to Ps.2,759 million from the previous year.

As a result, Total Play's EBITDA grew 63%, to Ps.2,676 million, from Ps.1,643 million a year ago; the EBITDA margin for the quarter was 42%, five percentage points higher than the 37% of the previous year. The company recorded operating income of Ps.658 million, compared to operating income of Ps.268 million a year ago.

Total Play reported a net loss of Ps.216 million, from a net loss of Ps.370 million in the same period of 2020.

Revenue from services

The company's revenue grew 44%, as a result of a 67% increase in sales from the residential segment, and a 2% increase in revenue from the enterprise business.

Totalplay Residencial's revenue growth, to Ps.4,789 million, compared to Ps.2,869 million from the previous year, results from a 66% increase in the number of subscribers to the company's services, to 2'695,532.

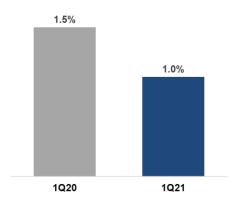

Revenue generating units (RGUs) grew 66%, to 7'120,000 at the end of the quarter, compared to 4'292,523 the previous year. The number of data RGUs grew 66%, to 2'695,532, those of voice 74%, to 2'628,528, and those of video increased 55%, to 1'795,940.

RGUs

The dynamism of Totalplay Residencial reflects the preference of thousands of users for the solid offer of broadband services with speeds of up to 500 Mbps, content on applications and linear TV attributes that optimize the customer's entertainment experience, as well as voice solutions with worldwide coverage from the mobile application. In this context, the disconnection rate was 1.0% at the end of the quarter, compared to 1.5% a year ago, and the average revenue per subscriber (ARPU) for the period was Ps.611 — outstanding level in the market — from Ps.614 from the previous year.

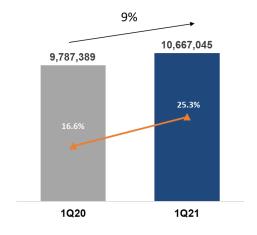

Churn

Given the notable demand for Total Play services, the company makes investments to increase geographic coverage and further expand the subscribers base. The number of homes passed across the country grew 9%, to 10.7 million at the end of the quarter, from 9.8 million a year ago.

Penetration — proportion of homes passed by Total Play that have the company's telecommunications services — continued its solid growth and reached 25.3% at the end of the quarter, 8.7 percentage points above the 16.6% a year ago.

Homes passes (millions) and penetration

Revenue from the enterprise segment was Ps.1,567 million, compared to Ps.1,534 million from the previous year, largely as a result of higher revenues from government clients.

The demand for the company's high-capacity internet services, video surveillance and cloud and management solutions is solid and growing, by a large number of the most important companies in Mexico and by public entities. Total enterprise segment customer services grew 25% to 109,873 at the end of the quarter, compared to 87,719 the previous year.

Costs and expenses

Total costs and expenses grew 33%, as a result of a 30% increase in service costs and a 37% increase in general expenses. The increase in costs, to Ps.1,627 million, from Ps.1,256 million in the previous year, results mainly from the acquisition of telecommunications equipment for enterprise clients, licenses, content purchases, commissions and the acquisition of connection links for optimal network operation.

The increase in expenses, to Ps.2,053 million, from Ps.1,503 million, reflects higher personnel, maintenance, advertising and promotion expenses, within the framework of growing operations in Total Play.

EBITDA and net result

Total Play's EBITDA was Ps.2,676 million compared to Ps.1,643 million from the previous year. The company recorded operating income of Ps.658 million, from operating income of Ps.268 million in the first guarter of 2020.

The main variations below EBITDA were the following:

An increase of Ps.641 million in depreciation and amortization, as a result of investments in the coverage of the fiber optic network, and a greater number of telecommunications equipment, in the context of the robust growth of the company.

An increase of Ps.370 million in interest charges, mainly derived from an increase in long-term financial debt.

Total Play recorded a net loss of Ps.216 million, from a net loss of Ps.370 million a year ago.

Balance Sheet

As of March 31, 2021, the company's debt with cost was Ps. 27,846 million, compared to Ps.15,932 million from the previous year. The balance of cash and cash equivalents at the end of the quarter totaled Ps.46 million, from Ps.168 million a year ago; as a result, net debt was Ps.27,800 million, compared to Ps.15,764 million in the previous year.

The growth of the debt balance is related to the successful placement of Senior Notes for US\$575 million in international markets in the previous quarter, with an interest rate of 7.5%, due in 2025.

The Senior Notes — which were rated B2 by Moody's and BB- by Fitch — are used to increase the company's geographic coverage, as well as to refinance liabilities, in order to reduce the cost of debt and improve its maturity profile.

The financial lease liability was Ps.2,500 million, compared to Ps.3,046 million from the previous year.

Cash Flow

As of March 31, 2021, Total Play used cash flows in investment activities for Ps. 3,808 million, which were directed, to a great extent, to the geographic expansion of the fiber optic network across the country, as well as the purchase of telecommunications equipment to connect a growing number of users to the company's triple play services.

This amount was partially offset by the generation of cash flow from operating activities of Ps.2,356 million and cash flow from financing activities of Ps.282 million.

As a result, the company's cash and cash equivalents balance decreased by Ps.1,741 million in the period.
